Easy Money

Johnny Marr

I used to want it all And that's money money That's money money That's money money Watching human fall And that's only money That's money money That's money moneyThat's no way to serve No way to serve No way to serve nobody There's no benefit There is no benefit No way to benefit somebody That's not any sense No innocence No way no way they sex, no way no That's no way to serve That ain't no way to serve Working for it all But it's money money It's money money It's money money Watching human fall But it's only money That's money money That's money money You can walk the street And it's money money It's money money It's money money Catch the fantasy Cause it's money money That's money money That's money money No checks, no loan, no rent to pay It's gone today How to accumulate There's not any sense There is no innocence There is money commerce no baby It's all an expense The way the pans are set The way the weather burned nobody It's just all expense

No way the world accepts There is no innocence, no baby That's no way to hurt That ain't no way, no sirCatch a fantasy Cause it's money money That's money money That's money money Catch her and degree And that's money money That's money money That's money money Working for it all But it's only money That's money money That's money money Watching how we fall Cause that's easy money That's easy money That's easy moneyNo spend no sum no lays no claims And there's no pain to play No free fortune so let's just slave No rainy day better come this wayWorking for it all But it's money money That's money money That's money money Watching human fall And that's only money That's easy money That's easy moneyC'mon come buy the tea And it's money money That's money money Catch a fantasy 'Cause it's money money That's easy money That's easy money
