

# You Need Me

[Mariah Carey](#)

Yeah

Ooh yeah Wait a minute before you walk away

Let me finish, I've got a lot to say, yeah

Baby, I'm not gonna tolerate this game that you play, no

You'll regret it if you desert me this way, yeah

When there's nobody to dry your eyes

Suddenly you're gonna realize Don't you know you need me

Don't you see, believe me

Before you act so hastily

Baby, remember you need me Honey, listen, don't make a big mistake, no

I'm in your system, you really can't escape, no, no

When there's nobody to hold your hand

Suddenly you're gonna understand

Don't you know you need me

Don't you see, believe me

Before you act so hastily

Then baby, remember you need me Don't you know you need me

Don't you see, gotta believe me

Before you act so hastily

Baby, remember you need me No one understands you like I do

After everything that we've been through

Baby, you can turn around and leave

But I know that you'll keep coming right back to me Get down here

You know

Ooh

Don't you know you need me

Don't you see, gotta believe me

Now before you act so hastily

Baby, remember you need me Don't you know you need me

Don't you see, believe me

Baby, now before you act so hastily

Baby, remember you need me Don't you know you need me

Don't you see, believe me

Well, baby, remember you need me Don't you know you need me

Don't you see, believe me
