

Black Velvet

Ferry Corsten

Black Velvet...
A Severed lie...
A lover's high...
No will to fight...
So lay your gun down here...Just kiss me sweet...
And hold me tight...
There's only I...
Can get me out of this...Black velvet...
Feels warm on my skin...
Touch me slowly...
Wanna saviour my freedom...
How could I know I'd love for this?...
I lied for love in the name of peace...
How could I know I'd come to this?
How could I know I'd dream for this?
How could I know I'd die for this?
Lay down your gun come run with me...
So kiss me slowly...
Kiss me quick...
Alone and safe...
An empty street...
Stop the games...
Surrender so...
In front of false...
May make it through...
Before the lights...
Come blind my skin...
I wanna feel...
This love I'm in...
Guilty pleasure...
My desire...
I'll hold you to...
My line of fire...
So kiss me sweet...
And kiss me slow...
Til I get high...
No plans to let this go...
What could I say?...
What would you do?...
Tempation got the better of you too...Black velvet...
Feels warm on my skin...
Kiss me slowly...

Wanna saviour this moment with you...
How could I know I'd love for this...
I lied for love in the name of peace...
How could I know I'd come to this...
How could I know I'd dream for this...
How could I know I'd die for this...
Lay down your gun come run with me...
So kiss kiss kiss kiss kiss kiss... kiss me tonight
Your love tastes sweet makes me feel everything's alright...
So kiss kiss kiss kiss kiss kiss... kiss me tonight
Your love tastes sweet makes me feel everything's alright...
