

# I Don't Miss You

Eric Nam

I hear you speaking  
Your words they lost their meaning  
And I'm so done with dealing  
dealing with you Feels like you're reaching  
for something I ain't seeing  
Don't mean to be misleading  
misleading to you when I said we could stay friends  
why'd you believe it  
Being friends is something  
lovers just can't do  
When I said maybe one day  
I didn't mean it  
Well at least right now  
I'm telling you the truth  
I don't miss you  
When you go  
Go your way  
And I'll go mine  
Let it go  
Don't look back you'll be all right  
I don't miss you  
Don't miss me too I know your hurting  
No easy way word it  
You'll find someone who's perfect  
perfect for you But it just ain't me  
Don't mind if you just hate me  
Take back this time you're wasting  
And spend it on you  
When I said we could stay friends  
why'd you believe it  
Being friends is something  
lovers just can't do  
When I said maybe one day  
I didn't mean it  
Well at least right now  
I'm telling you the truth  
I don't miss you When you go  
Go your way  
And I'll go mine  
Let it go  
Don't look back you'll be all right  
I don't miss you

Don't miss me too  
I don't miss you  
Don't miss me too It's not easy to let go  
of what we had  
We lost that feeling  
It's over We can't go back  
We could try to work it out  
but tell me what's the use in that  
Cause I don't miss you When you go  
Go your way  
And I'll go mine  
Let it go  
Don't look back you'll be all right  
I don't miss you  
Don't miss me too  
I don't miss you  
Don't miss me too
