

Regardless

Gentleman

Why we make things so complicated
Seems like we just don't manage to live in peace
What's happening with us
Why you so unkind mankind?
War it have to cease Why don't you live as one
Regardless where you from
Rise and take a stand
The journey seems extreme
But work towards your dream
Don't you be confused now
Jah is the supreme
Your mood better than your situation
And your situation a cause frustration
Frustration a cause hesitation
Hesitation a cause peer separation
Man hafi go back ins meditation
Meditation give you more inspiration
Inspiration give you more education
Education that a fi all the nation
What a cause so much sufferation
Sufferation only bring devastation
Every day dem a come with new
Legislation and a whole leap of things what i not mention
Mention- the youths nuh have no occupation
Occupation stop the desperation
Desperation is man creation
Why don't you live as one
Regardless where you from
Rise and take a stand
The journey seems extreme
But work towards your dream
Don't you be confused now
Jah is the supreme And the youths have sense now
Can't trick none a dem like one time
Got to beat dem fence down
And walk through the valley with a strong mind
No need to get tense now
You've been doing this thing from a long time
And I'm here now to show dem the way can't
Make dem wait in a lang line Why don't you live as one
Regardless where you from
Rise and take a stand

The journey seems extreme
But work towards your dream
Don't you be confused now
Jah is the supreme
