

The City

Madeon

There is a place in the distance
A place that I've been dreaming of
No oh time and space don't exist there
We can dance like there's no tomorrow
There is a place, no time and space I've got tomorrow to
I've got to go all the way
I've got tomorrow to
I've got to go all the way
I've got tomorrow to
I've got to go all the way
I've got tomorrow to I can feel the city crumbling around me
Can't seem to find my way
But I can see your bright light calling through the dark night
Hoping to find my way
Yeah, I had what I wanted
It went away so fast, fast
Yeah, I got to let go
We can dance like there's no tomorrow
So here we go I've got tomorrow to
I've got to go all the way
I've got tomorrow to
I've got to go all the way
I've got tomorrow to
I've got to go all the way
I've got tomorrow to I can feel the heartbeat underneath the concrete
Just like a kick drum plays
Running in a straight line guided by the street lights
Pushing the dark away
Yeah, I had what I wanted
It went away so fast, fast
Yeah, I got to let go
We can dance like there's no tomorrow There is a place in the distance
A place that I've been dreaming of
No oh time and space don't exist there
We can dance like there's no tomorrow There is a place in the distance
A place that I've been dreaming of
No oh time and space
We can dance like there's no tomorrow, oh oh oh! I've got tomorrow to
I've got to go all the way
I've got tomorrow to
I've got to go all the way
I've got tomorrow to

I've got to go all the way
I've got tomorrow to Tomorrow, tomorrow
We can dance
