

# The City

## Madeon

There is a place in the distance  
A place that I've been dreaming of  
No oh time and space don't exist there  
We can dance like there's no tomorrow  
There is a place, no time and space I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to I can feel the city crumbling around me  
Can't seem to find my way  
But I can see your bright light calling through the dark night  
Hoping to find my way  
Yeah, I had what I wanted  
It went away so fast, fast  
Yeah, I got to let go  
We can dance like there's no tomorrow  
So here we go I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to I can feel the heartbeat underneath the concrete  
Just like a kick drum plays  
Running in a straight line guided by the street lights  
Pushing the dark away  
Yeah, I had what I wanted  
It went away so fast, fast  
Yeah, I got to let go  
We can dance like there's no tomorrow There is a place in the distance  
A place that I've been dreaming of  
No oh time and space don't exist there  
We can dance like there's no tomorrow There is a place in the distance  
A place that I've been dreaming of  
No oh time and space  
We can dance like there's no tomorrow, oh oh oh! I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to

I've got to go all the way  
I've got tomorrow to Tomorrow, tomorrow  
We can dance
