The City

Madeon

There is a place in the distance A place that I've been dreaming of No oh time and space don't exist there We can dance like there's no tomorrow

There is a place, no time and spaceI've got tomorrow to

I've got to go all the way

I've got tomorrow to

I've got to go all the way

I've got tomorrow to

I've got to go all the way

I've got tomorrow to I can feel the city crumbling around me

Can't seem to find my way

But I can see your bright light calling through the dark night

Hoping to find my way

Yeah, I had what I wanted

It went away so fast, fast

Yeah, I got to let go

We can dance like there's no tomorrow

So here we goI've got tomorrow to

I've got to go all the way

I've got tomorrow to

I've got to go all the way

I've got tomorrow to

I've got to go all the way

I've got tomorrow toI can feel the heartbeat underneath the concrete Just like a kick drum plays

Running in a straight line guided by the street lights

Pushing the dark away

Yeah, I had what I wanted

It went away so fast, fast

Yeah, I got to let go

We can dance like there's no tomorrowThere is a place in the distance

A place that I've been dreaming of

No oh time and space don't exist there

We can dance like there's no tomorrowThere is a place in the distance

A place that I've been dreaming of

No oh time and space

We can dance like there's no tomorrow, oh oh oh! I've got tomorrow to

I've got to go all the way

I've got tomorrow to

I've got to go all the way

I've got tomorrow to

I've got to go all the way I've got tomorrow toTomorrow, tomorrow We can dance Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
