Meet You At the Moon

Imelda May

We're looking at the same moon

Though we're miles apart We're wishing on the same star When you're deep in my heart I don't know if you know but when we miss each other so Look up I'll meet you at the moonWe're staring at the same sky Strangers it seems We're sitting on the same earth Though there's oceans between I don't know if you know but when we miss each other so Look up I'll meet you at the moonUmm... I'm part of you and you're part of me But it's a cold old world when your missing somebody Without you I wouldn't, couldn't be So when your heart is aching and you can't take much more breaking We're looking at the same moon Though we're miles apart Te're wishing on the same star Then you're deep in my heart I don't know if you know but when we miss each other so
