And take a little walk when the worst is to come When I saw you looking like I never thought And say you're at a loss or forgot That words can do more than harmAnd the town is gonna talk, But these people do not See things through to the very minimal. But what's it gonna cost to be gone If we see you like I hoped we never would? My eyes can't look at you any other way, Any other way, any other way When eyes can't look at you any other way, Any other way, any other waySo take it as a song or a lesson to learn And sometime soon be better than you were If you say you're gonna go, then be careful And watch how you treat every living soul My eyes can't look at you any other way, Any other way, any other way When eyes can't look at you any other way, Any other way, any other way Song Discussions is protected by U.S. Patent 9401941.
