Free Your Body

Chris Lake & Solardo

You always hear people talking about

"Free your mind, free your body, free your soul"

But they really don't know what that meansThey don't really know how to do itFree your mind

Free your soul

Free your body

Free your mind

Free your soul

Do you free your body?Do you free your body?You always hear people talking about

"Free your mind, free your body, free your soul"

But they really don't know what that means

They don't really know how to do it

Free your mind

Free your soul

Free your body

Free your mind

Free your soul

Do you free your body? Do you free your body?

Do you free your body?You always hear people talking about

"Free your mind, free your body, free your soul"

But they really don't know what that means

They don't really know how to do itFree your mind

Free your soul

Free your body

Free your mind

Free your soul

Do you free your body?

You always hear people talking about

"Free your mind, free your body, free your soul"

But they really don't know what that means

They don't really know how to do itFree your mind

Free your soul

Free your body

Free your mind

Free your soulDo you free your body?

Do you free your body?

Do you free your body?

Do you free your body?
