

Southern Skies

Matrimony

Day by day I watch the sun fall down over what i know as a southern town.
I like the way it looks when it's going down.
Late at night I get behind the wheel on a wide open road where nobody ever goes.
I like the southen roads, I like the way they roll.
we share southern skies.
we share southern skies.
All fired up we're gonna pass the cup.
Holding up a moment gonna live it up.
Take off your sunday best and tear it up.
and tear it up.
I can't forget the place that i come from.
I've been here so long these people are my home.
I like it feels when I'm with my own.
Yeah I like the way it feels.
Catch the southern soul, the southen soul, southern soul.
Catch the southern soul, the southern soul, southern soul.
We share southern skies.
we share southern skies.
we share southern skies.
we share southern skies.
we share.
