## It's Ecstasy When You Lay Down Next To Me

## **Barry White**

When we met, it wasn't quite clear to me What you had in store was there for only me Silly, you know you took me by surprise Then I turned and looked, I saw that message in your eye There you were, I fell on the floor The way you move, girl, only made me want you more I did not know you had me hypnotized There's a movement of your body dancin' in my eyes I know I had to hold you and make you mine Don't want to control you just to have a good time In ecstasy when you're layin' down next to me Oh, no, no, ecstasy, yeah, when you're layin' down next to me I find it hard for me to concentrate If I don't make my move, girl, it might be too late I've got to make sure you don't get away After all you done, girl, to make me wanna stay All my life I've been searchin' for a star Now my search is over and here we are Livin' in ecstasy, yeah, when you lay down next to me, yeah Here in ecstasy, when you're layin' down next to me I wanna hold you and make you mine Don't want to control you just to have a good time Livin' in ecstasy, well, when you're layin' down next to me Ooh! ooh! wee, ecstasy, when you're layin' here with me, uh-huh In this ecstasy when you are here with me, yeah Oh, it's ecstasy, Lord knows when you're next to me, yeah Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
