

Best of Me

Christina Aguilera

Think I'm steel
Tough as nails
Never feel
Never fail
But you're wrong
So damn wrong Feel the weight
Of your hate
I still bleed
My heart aches
As you take
And You take
Words cut through my skin
Tears roll down my chin
My walls crumble within
But I'll take it all on
And get up when I fell
Till the last curtain call But you'll never get the best of me
No more
Said you'll never get the best of me
No more
Aren't you tired of throwing stones
Trying to kick me when I'm down
But you'll never get the best of me, no more So you're cold
Made of ice
Heart of stone
Born to fight
But I cry
I still cry
Are you happy
You know
I'm unhappy
You know
Take your shot I'm wide open
Words cut through my skin
Tears roll down my chin
My walls crumble within
But I'll take it all on
And get up when I fell Till the last curtain call
But you'll never get the best of me
No more
Said you'll never get the best of me
No more

Aren't you tired of throwing stones
Trying to kick me when I'm downBut you'll never get the best of me, no more
But you'll never get the best of me
No more
Said you'll never get the best of me
No more
Aren't you tired of throwing stones
Trying to kick me when I'm downBut you'll never get the best of me, no more
Heartbroken an beaten
Knocked down and mistreated
I will rise undefeated
I will not let you bring me down
Now the pain is deletedAnd I will never repeat itI will rise and defeat it
I will not let you bring me down
No, I won't let you bring me downKnocked down and mistreated
Heartbroken and bleeding
Still I rise undefeated
Cause you'll never...
Cause you'll never get the best of me
No more
Said you'll never get the best of me
No more
Aren't you tired of throwing stones
Trying to kick me when I'm down
But you'll never get the best of me, no more
Heartbroken and bleeding
Knocked down and mistreated
Still I rise undefeated
I will not let you bring me down
Now the pain is deleted
And I will never repeat it
I will rise and defeat it
I will not let you bring me down
