

Good Life (feat. Yvette)

Kiso

Blaze up a cup for all of my day wants
Two middle fingers for the haters
Life's only getting greater
Stayin' up for nothing
We go higher than a high skyscraper
Only the league we major
That proof is in the paper
We put the good in the good in the good life
We put the good in the good in the good life
We put the bad in the best, now we're alright
Hey hey hey yeah hey
Blaze up a cup for all of my day wants
Two middle fingers for the haters
Life's only getting greater
Stayin' up for nothing
We go higher than a high skyscraper
Only the league we major
That proof is in the paper
We put the good in the good in the good life
We put the good in the good in the good life
We put the bad in the best, now we're alright
