Wake up lonely with you by my side One more night it doesn't feel There are movies playing in your eyes You dream of our fortunesBut you're wrong I don't belong to youThe moon is the only friend I have outside One more drink and I'll be healed I told you the words and then knew it was a lie I wish I could offer an appeal You're wrong I don't belong You're wrong I don't belong to youWhat I'd give for that first night When you were mine You were mine Tried with all that I have to keep you alive I wasn't taught this way With a thousand things to say I was born with a broken heart What I'd give for that first night When you were mine You were mine Thought you were mine So I'll put this cigarette to bed Pull some sheets from off your side I put my arm around you safe in the night Still dreaming of fortune But you're wrong I don't belong You're wrong I don't belong I don't belong Song Discussions is protected by U.S. Patent 9401941.
