On Hold

The xx

I don't blame you We got carried away I can't hold on To an empty spaceNow you've found a new star to orbit It could be love I think you're too soon to call us old When and where did we go cold? I thought I had you on holdAnd every time I let you leave I always saw you coming back to me When and where did we go cold? I thought I had you on hold Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body Dare me to, dare me to Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body I thought I had you on hold Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body Dare me to, dare me to Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body Dare me to, dare me to My young heart chose to believe We were destined Young hearts All need love Call it a lesson The stars and the charts And the cards make sense Only when we want them to When I lie awake staring in to space I see a different viewNow you've found a new star to orbit It could be love I think you're too soon to call us old When and where did we go cold? I thought I had you on holdAnd every time I let you leave I always saw you coming back to me

When and where did we go cold? I thought I had you on hold I thought I had you on hold I thought I had you on holdWhere does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body Dare me to, dare me to Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body You've got the body, you've got the body Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body Dare me to, dare me to Where does it stop, where does it stop Where do you dare me to? You've got the body, you've got the body Dare me to, dare me toAnd every time I let you leave I always saw you coming back to me When and where did we go cold? I thought I had you on hold I thought I had you on hold I thought I had you on hold
