

# Could've Been (feat. Bryson Tiller)

H.E.R.

Please, allow me to show you something  
Somebody give me  
Yeah  
Somebody give me, uh  
Somebody tell me the answers  
Me and you isn't the answer, uh  
Me and you isn't  
Maybe I'm telling myself that  
But there ain't nothin' that'll change that  
What good would it be  
If I knew how you felt about me? (yeah)  
It could've been right but I was wrong  
Only think 'bout you when I'm alone  
Part of me that cared just know it's gone  
And I know, that I can't, get caught up  
We could've been  
And we tried to pretend  
Every now and again  
We don't dream about, don't think about what  
We could've been  
Though I'm holding again  
'Cause I know in the end  
You dream about, I think about what  
We could've been  
We could've been, yeah  
We could've, damn  
Remember?  
Remember the night in Miami  
First time you put your arms around me  
I'm up reminiscing (ooh yeah)  
Thinking about you isn't helping  
Thinking about you doesn't tell me  
What good it would do, if I decide to face the truth  
It could've been right but I was wrong  
Only think 'bout you when I'm alone  
You only hit me up when she's not home  
And that's why, I can't, get caught up  
We could've been  
And we tried to pretend  
Every now and again  
We don't dream about, don't think about what  
We could've been  
Though I'm holding again  
'Cause I know in the end  
You dream about, I think about what  
We could've been  
We could've been

We could've  
We could've been  
What we could've been, we could've beenAy  
What we could've been  
What we should've been  
If I wasn't, if I wasn't-  
With somebody, if you gotta hide it what's the point of trying?  
I ain't just your friend, no, what's the point of lying?  
Tryna sell a story ain't nobody buyin'  
Look me in my eyes, don't that feel nice?  
Why should it end?  
Baby I could've been  
I could've been him, more than your friend  
Just say where and when, where to make a trip  
Baby make a wish, be the one I'm with  
Should've been a-, should've, could've, would have been, ay  
Yeah I would have been (damn)  
Yeah I would have been (yeah)Damn, damn (could've been)  
Yeah, we could've been (oh no)
