

# Illusion

## One Direction

Tell me you believe in love  
It's not an illusion I been thinking about the nights  
And the dangerous tricks  
People play on the eyes of the innocent  
I can turn a lot of hearts into  
Breaks with smoke and  
Mirrors disappearing  
Right in front of them But believe me  
I'm not trying to deceive you  
I promise falling for me  
Won't be a mistake  
No baby this is not an illusion  
I've really got my heart out on my sleeve  
Oh baby this is not an illusion  
There's magic between you and me  
No baby this is not an illusion  
You really got me lifted off my feet  
So tell me you believe in love  
Cause it's not an illusion to me You don't ever have to worry about me  
About how the cards fall  
I'm all that you need tonight I would never turn your heart into  
Broken parts  
You don't have to think twice  
Looking in my eyes  
Can't you see it?  
I'm not trying to mislead you  
I promise falling for me  
Won't be a mistake No baby this is not an illusion  
I've really got my heart out on my sleeve  
Oh baby this is not an illusion  
There's magic between you and me  
No baby this is not an illusion  
You really got me lifted off my feet  
So tell me you believe in love  
Cause it's not an illusion to me You can tie me up in chains  
You can throw away the key  
But there's no trapped doors  
I'm not gonna leave  
You're the truth I can't explain  
You're the only one I see  
It's not an illusion to me No baby this is not an illusion  
I've really got my heart out on my sleeve

Oh baby this is not an illusion (This is not an illusion)  
Theres magic between you and me  
No baby this is not an illusion (Yeah)  
You really got me lifted off my feet (Really got me off my feet)  
So tell me you believe in love  
Cause it's not an illusion to me  
(Believe in love)  
So tell me you believe in love  
Cause it's not an illusion
