

# Sun Goes Down (feat. Isadora)

**Bruno Martini**

Hit you up, late at night  
All I wanna is to get high  
Feel the wind in my hair  
I need to feel alive Up all night by your side  
I'm not preoccupied  
Through the dark, feel so good  
Now over me and you And I want you in the summer line  
And I need you 'till the sun goes down  
I'll be with you in my paradise  
'Cause I need you 'till the sun goes down And I want you in the summer line  
And I need you 'till the sun goes down  
I'll be with you in my paradise  
'Cause I need you 'till the sun goes down  
(Till the sun goes)  
(Till the sun goes down) Hold me close, feel my fire  
A heartbeat synced all night  
Feel the tides in my life  
Kiss me once, I'll kiss you twice Up all night by your side, I'm not preoccupied  
Through the dark, feel so good  
Now over me and you And I want you in the summer line  
And I need you 'till the sun goes down  
I'll be with you in my paradise  
'Cause I need you 'till the sun goes down And I want you in the summer line  
And I need you 'till the sun goes down  
I'll be with you in my paradise  
'Cause I need you 'till the sun goes down  
(Till the sun goes)  
(Till the sun goes down)  
(Till the sun goes)  
(Till the sun goes down)
