

# Out of the Woods

## Foals

It's times like these when I'm on my way out of the woods  
Never felt better than when I'm on my way out for good  
It's times like these when I'm on my way back out of the woods  
I'll never be afraid again now I'm out of here for good  
It was just a dream  
The most beautiful place I've seen  
The white caps and the pines  
Ripped our nations in the sea  
It's times like these when I'm on my way back out of the woods  
I've never felt better than when I'm on my way out for good  
Now I've finally found  
All my friends are in the clouds  
Alone now, in my head now  
All alone now, in my head  
It's times like these when I'm on my way back out of the woods  
I've never felt better than when I'm on my way out for good  
Now I've finally found  
All my friends are in the clouds  
Alone now, in my head now  
All alone now, in your head  
And I've waited just so long  
To sing you this final song  
Time keeps ticking, time keeps pushing, time keeps rolling along
