## **Unconditional**

## **Sinead Harnett**

Sat in your car in my driveway
Where did we lose the time?
We were just living for Fridays
When I could call you mine
When I could only see blue
You taught me to swim

And when you didn't have to

You took me inIf we can make it, make it

Make it all possible Then we can take it, take it

Take it and have it all This is unconditional

This is unconditional

This is unconditional

This is unconditional

I leave yours only wanting more

And count the pavement stones

You cut me a key for the front door

So I could call it home

When I could only see blue

You taught me to swim

And when you didn't have to

You took me inIf we can make it, make it

Make it all possible

Then we can take it, take it

Take it and have it allIf we can make it, make it

Make it all possible

Then we can take it, take it

Take it and have it all

This is unconditional

This is unconditional

This is unconditional

This is unconditional This is unconditional

This is unconditional

This is unconditional

This is unconditional Unconditional

Unconditional

Unconditional

Unconditional
