

Hello Again

Jamaica

Intuitions are the best friends ever
Something I can sleep on
Something I can lean on when the picture's incomplete
This is where I'm tomorrow
This is where I'm in the future
This is where are my future feelings
Something I can lean on when the picture's incomplete
Can I tell you how I tried never meeting eyes?
Wish we had a longer time to catch us through the lies
Hello again, know if we will trust a few
Barely...a bore
I hope you funk a devil
Keep in mind, you're faster than the teachers told you then
But it's somewhere on tomorrow
It's somewhere on the makeup
It's somewhere in the future meetings
Something you can lean on when the picture's incomplete
Can I tell you how I tried never meeting eyes?
Wish we had a longer time to catch us through the lies
Hello again, know if we will trust a few
Can I tell you how I tried never meeting eyes?
Wish we had a longer time to catch us through the lies
Can I tell you how I tried never meeting eyes?
Wish we had a longer time to catch us through the lies
Hello again, know if we will trust a few
Hello again, know if we will trust a few
