

Vampire

Mai Lan

lone lone love
gonna hit some pom pom
all we need is get some
Of it need to get drunk
i'm here to say hello
watch above and below
guns under pillows
never have just call your mama
we'll drink all of it
don't need a plumber
we're gonna empty it
just like a vampire
lonely limbs gonna eat you
yum yum
Chew you like a gum gum
drink your blood like a soda
i'm here to build up an empire
cause i'm a vampire
better hide in a bunker
gonna cook you with pepper and lime
watch your former jawline
got a need to be filled up
and if you run I will walk we will always find you
and if you climb up walls I can always reach you
i'm here to build up an empire
cause i'm a vampire
cause I'm a vamp
You - you found your place in it
got a huge stomach
it'll be warm and sweet
lime and coconut
is it an exodus
you can't escape from this
get used to this
get in your timing
just call your grandmama
and all the friends you got
i'm the new dracula
i need a hangover
i'm gonna fill this cup
With some of your ketchup
And gonna drink you up

until the final drop i'm here to build up an empire
cause i'm a vampire
better hide in a bunker
gonna cook you with pepper and lime
watch your former jawline
got a need to be filled up
and if you run I will walk we will always find you
and if you climb up walls I can always reach you
i'm here to build up an empire
cause i'm a vampire
cause i'm a vamp Lone lone love
Gonna hit some pom pom
All we need is get some
All we need is get drunk
We'll drink all of it
We're gonna empty it
Gonna eat you yum, yum
Chew you like a gum, gumi'm here to build up an empire
cause i'm a vampire
Better hide in a bunker
gonna cook you with pepper and lime
watch your former jawline
got a need to be filled up
and if you run I will walk we will always find you
and if you climb up walls I can always reach you
i'm here to build up an empire
cause i'm a vampire
cause i'm a vamp
