

# Whispers Under the Moonlight

ALB

Whispers under the moonlight  
Whispers under the moonlight I'm still waiting  
I'm still waiting  
And will I see you again?  
I'm still waiting but still keep on dreaming  
Sometimes you seem to be right there, seem to be right there  
Sometimes you seem to be right there, seem to be there I'm still standing but I'm sick of waiting  
The moment that I'll see you again  
'Cause from the moment we started something, we knew there was something  
Sometimes you seem to be right there, seem to be right there  
Sometimes you seem to be right  
There and sometimes you're there  
Sometimes you seem to be right there and sometimes you're there.  
Cause you're just like no one else And it seems that you're able to fit squares into circles  
Well, you might find  
Cause you're just like no one else  
And it seems that you're able to fit squares into circles  
You try to fit squares into circles  
Well, you might find  
I'm still waiting  
I'm still waiting  
And will I see you again?  
From the moment we started something we knew there was something  
The way you seem to be right there, seem to be right there Whispers under the moonlight  
Whispers under the moonlight Whispers under the moonlight...
