

# Honeymoon Fades

Sabrina Carpenter

I hope we stay the same, hey  
Honeymoon Unexpected, this thing that we fell into  
Lie, so connected  
You came at a time when my heart was selective  
Didn't have to choose  
My love was accepted, yeah Now I'm learning, you like wonder why  
You were sent to me like a one of one  
And now we're going, I just want no one  
Nobody else I hope we never change  
I hope we stay the same  
I hope that we can love through the pain  
After the honeymoon fades  
I hope we never change  
I hope we stay the same  
I hope we can love through the pain  
After the honeymoon fades  
After the honeymoon fades, yeah Now remember when we met, we was all in each other's bed  
And we were spending every second we had  
And now that it's official, it's hittin' a little different  
What the hell we gonna do with these bags? No, yeah And now I'm learning, you like wonder  
why  
You were sent to me like a one of one  
And now we're going I just want no one  
Nobody else I hope we never change  
I hope we stay the same  
I hope that we can love through the pain  
After the honeymoon fades  
I hope we never change  
I hope we stay the same  
I hope we can love through the pain  
After the honeymoon fades  
After the honeymoon fades, yeah And I hope it tastes the same, huh  
Even if it's best, wait Honeymoon fading with you (Fading with you)  
Honeymoon fading with you (Fading with you)  
Honeymoon fading with you (Fading with you)  
Honeymoon fading, fading Oh, oh, oh, oh, oh, oh, oh  
Oh, oh, oh, oh, oh, oh  
Oh, oh, oh
