

All My Love (feat. Ariana Grande)

Major Lazer

Sometimes I think we're the brightest stars
And I try to believe we'll find a way
Will lives change when our hearts turn colder?(Major Lazer)All the rhythms in my heart lift me
up inside
We can't stay out of trouble, is it worth the blame?
Is it true that the more you give, the more they take?
All the rhythms in my heart lift me up and sayOnly love will make us ache
Only love is worth the chase
All my love, I know we're ready for this
All my love's up on the mountain topsAll my love, all my love
All my love's up on the mountain top
All the rhythms in my heart lift me up and say
We're just a messed up, broken people
But we love again
I would do anything for love
It's worth the pain
All the rhythms in my heart lift me up and sayOnly love will make us ache
Only love is worth the chase
All my love, I know we're ready for this
All my love's up on the mountain topsAll my love, all my love
All my love up on the mountain top
All my love, all my love
All my love up on the mountain topYou are always on my mind
All throughout the day
Day where we can fly
Reach the glory haze
High up in the sun and above the sky
Sun and above the skyOnly love will make us ache
Only love is worth the chase
All my love, I know we're ready for this
All my love's up on the mountain topsAll my love, all my love
All my love up on the mountain top
All my love, all my love
All my love up on the mountain top
