

# Sinners (feat. Daisy Guttridge) [Blanke Remix]

## Tommy Trash

We used to live in the lines, just following behind  
Someone else's footsteps on someone else's time  
Baby, just let me change your mind  
We can forget and come alive  
And in the dark just hold me tight  
I'll show you the light, show you the light We can let go and live like sinners  
And touch like sinners  
And breathe like sinners  
Let's love like sinners  
Let's love like sinners  
You don't have to be afraid, of where this road will take us  
I'mma let you slip away, slip right out my fingers  
Baby, just let me change your mind  
We can forget and come alive  
And in the dark just hold me tight  
I'll show you the light, show you the light We can let go and live like sinners  
And touch like sinners  
And breathe like sinners  
Let's love like sinners  
Let's love like sinners Let's love like sinners  
And breathe like sinners  
And touch like sinners  
And breathe like sinners  
Baby, just let me change your mind  
We can forget and come alive  
And in the dark just hold me tight  
I'll show you the light, show you the light  
We can let go and live like sinners  
And touch like sinners  
And breathe like sinners  
Let's love like sinners  
Let's love like sinners Let's love like sinners  
Let's love like sinners  
Let's love like sinners
