Please put me to bed And turn down the lightFold out your hands Give me a sign Hold down your lies Lay down next to me Don't listen when I scream Bury your doubts and fall asleep Find out: I was just a bad dreamLet the bed sheet Soak up my tears And watch the only way out disappear Don't tell me why Kiss me goodbye for Neither ever, nor never Goodbye Neither ever, nor never Goodbye Neither ever, nor never Goodbye Goodbye Song Discussions is protected by U.S. Patent 9401941.
