

# Katana (feat. Mayor Apeshit)

[Datsik](#)

Uhh, Yeah, Get Ready Jet black I creep in the night like a shadow  
Till your face hits light I action back-flip  
Stop you right in your motherfucking tracks then take your life Strategy, I got poria ku  
Defense, if I'm 'bout to Jujitsu  
Hit you up with the Fukiya that's darts to the throat so Ninja fuck you Uh,  
The shredded cheddar cheese  
Dismembered heads and knees  
Slashin gashin faces bleed  
Shinobi can't fuck with me  
I sneak over to the temple, I go make to crush yo innards  
Flooded bodies filled splinters, what up Ninjas?  
Faith in the night and I'm stealin' yo breath
