

My Bruvas

Fat Trel

See you can learn a lot from my brothers
And maybe one day count the guap with my brothers
The killin' never stop with my brothers
I just popped another glock with my brothers
Shot up a whole block with my brothers
Broke down another block with my brothers
See you can learn a lot from my brothers
And maybe one day count the guap with my brothers
The killin' never stop with my brothers
I just popped another glock with my brothers
Shot up a whole block with my brothers
Broke down another block with my brothers
See you can learn a lot from my brothers
And maybe one day count the guap with my brothers
The killin' never stop with my brothers
I just popped another glock with my brothers
Shot up a whole block with my brothers
Broke down another block with my brothers
See you can learn a lot from my brothers
And maybe one day count the guap with my brothers
The killin' never stop with my brothers
I just popped another glock with my brothers
Shot up a whole block with my brothers
Broke down another block with my brothers
See you can learn a lot from my brothers
And maybe one day count the guap with my brothers
The killin' never stop with my brothers
I just popped another glock with my brothers
Shot up a whole block with my brothers
Broke down another block with my brothers
