

# Never Say Never

## Basement Jaxx

Oh, never mind, we tried  
We loved  
We conquered, I won't forget  
The taste  
Oh, no I'll never say never again  
I'll never say never  
I'll never say never again  
I'll never say never  
I'll never say never again The music brings me right back  
And you know that  
And you know that  
I got the answers in me  
Tell me, tell me, tell me  
Like a vision of love  
You came, you stood  
You blew right through me  
I have no regrets  
The tears, the hopes I'll never say never again  
I'll never say never  
I'll never say never again  
I'll never say never  
I'll never say never again The music brings me right back  
And you know that  
And you know that  
I got the answers in me  
Tell me, tell me, tell me  
Oh, sing my love  
Oh, sing my love  
Oh, sweet my love  
Oh, sweet my love We've all just gotta be  
'Cause answers rarely come easily  
We've all just gotta be  
Then finally, finally we're free I'll never say never  
I'll never say never again Oh, sing my love The music brings me right back  
And you know that  
And you know that  
I got the answers in me  
Tell me, tell me, tell me It's like I hear an angel calling  
The music
