

Stand In Front of Me

Kelly Rowland

He
Said He said stand in front of me
Let me pone that ass Show em
Your my girl
And let it stay I'll
Be the king
As long as
You stand in front of me
In front of me
In front of me My life's become a fantasy
I wake up your my
Man
Give me the world and here you go
Just by grabbing my hand
Watch you worry puzzles me
And I love when you say
In front of me
I was asked something
Long ago
I couldn't answer
And it bothered me a little
How
Do
You keep your man
And I found the best answer
Its simple
You just do it do it
Mean it
Prove it
Thats how you keep your man
How you keep your man
How you keep your man
How you keep your man
Ladies do it do it
Mean it
Prove it
Oh you gotta have a plan
Gotta take a chance
That'll keep your man
That'll keep him saying
Let me pone that ass Show em
Your my girl

And let it stay I'll
Be the king
As long as
You stand in front of me
In front of me
In front of me So I'll get down
On bend a knee
And grab you by the
Hand
Your like oh no babe
You can't do that
I'm like oh oh ooh yes I can
Or we can just go back to cuddling
Or you could just say Front of me I was asked something
Long ago
I couldn't answer
And it bothered me a little
How
Do
You keep your man
And I found the best answer
Its simple
Do it do it
Mean it
Prove it
Thats how you keep your man
How you keep your man
How you keep your man
How you keep your man
Ladies do it do it
Mean it
Prove it
Oh you gotta have a plan
Gotta take a chance
That'll keep your man
That'll keep him saying OH
Let me pone that ass Show em
Your my girl
And let it stay I'll
Be the king
As long as
You stand in front of me
In front of me
In front of me Now I love
When my man talk to me like that
