

# Skeletons

James Arthur

They see that thing  
That you don't see  
They call them scared to tell us  
Don't be scared of them  
'cause you're still you  
And I'm still me  
It's all irrelevant  
I got scared to change You could tell me everything  
And then we could forget it  
Baby, you could show me all your demons  
Admit it  
You could be a battle  
And the words come back around  
Around  
We going never gotta tell the lions  
Where we're living  
I could show you demons  
Only you could take a minute  
Show me that you be there  
When the walls come crashing down  
When you're holding back the words  
'cause you're afraid of being heard  
Just let love in  
Just let love in  
Oh, we're only skin and bones  
We don't have to be alone  
Just let love in  
Just let love in  
I, I, I just let love in  
Just let love in Sink or swim  
What will it be?  
We all got scared to [?]  
Set them free  
But now I'm over it  
And I'm under you  
So tell me everything  
Take a trip to the moon  
Oh, when you're holding back the words  
'cause you're afraid of being heard  
Just let love in  
Just let love in  
Oh, we're only skin and bones

We don't have to be alone  
Just let love in  
Just let love in  
I, I, I, I, I, just let love in  
Just let love in You could tell me everything  
And then we could forget it  
Baby, you could show me all your demons  
Admit it  
You could be a battle  
And the words come back around  
Around  
We going never gotta  
Tell the lions that we're living  
I could show you demons  
Only you could take a minute  
Tell me I should be there  
When the walls come crashing down Oh, when you're holding back the words  
'cause you're afraid of being heard  
Just let love in  
Just let love in  
Oh, we're only skin and bone  
We don't have to be alone  
Just let love in  
Just let love in  
I, I, I, I, I, just let love in  
Just let love in  
I, I, I, I, I, just let love in  
Just let love in
