

# Top Shelf (feat. Bipolar Sunshine)

Whethan

If I could keep you safe, in the top shelf of my heart  
The world is full of hate  
So I loved you from the start  
When it's cold outside  
When your bones are tired  
I will carry you  
I wanna keep you safe  
In the top shelf of my heart I wanna keep you safe  
In the top shelf of my heart  
Throw my fears, right on your table  
For all my flaws  
Be forever grateful  
Every single road that you're gonna cross  
I'm telling you to hold onto what you got  
Embrace the wind  
And you will sail If I could keep you safe, in the top shelf of my heart  
I wanna keep you safe  
In the top shelf of my heart  
When you wake up  
Know that I'll be there  
Some day your spirit  
I'll be your air  
When it's cold outside  
When your bones are tired  
I will carry you  
I wanna keep you safe  
In the top shelf of my heart
