Last Night (feat. John Popper)

Johnny Winter

Last night I lost the best friend I ever had
Last night, last night I lost the best friend I ever had
Oh you're gone, you're gone and left me, that make me feel so bad
(Make me feel bad, baby)Now it's early in the morning and my love is comin' down for you
(Come on down)
Early in the morning and my love is coming down for you
I, I want you to tell me baby, woman what are we gonna do(Yeah we gotta do somethin' now,
let's give it a try)
Gonna wait for tomorrow, they tell me every day bring 'bout a change
Gotta wait for tomorrow, tell me every day bring 'bout a change
(Yeah)
I love you baby, don't you know that's a cryin' shame
