## **That Girl**

## **Jennifer Nettles**

A friend gave me your number To tell you watch your lover's tracks See I always kind of liked you So, I wanna have your back There is a good chance by the time you hear this The story's gonna say That I came on to him But it was never quite that wayI knew he was good looking Maybe too good to be true But when he kissed me in that alley I could tell there was a you I don't want to be that girl With your guy To fool you Make you cry Wreck it all For one night To be with him when he should be with you I don't want all the dirty looks The headlines So, I called you To explain why I wound up With your guy When I don't wanna be that girl I know boys can be promiscuous Yeah, that's just what they do But this involves the both of us Yeah, it's our business too So, I thought I'd call to tell you It was never in my plan I'm not the scarlet Devil I don't want to take your manImagine how surprised I was When he got up to leave It wasn't my name on his lips No, he didn't call for me He didn't say, JoleneI don't want to be that girl With your guy To fool you Make you cry Wreck it all For one night

To be with him when he should be with you I don't want all the dirty looks The headlines So, I called you To explain why I wound up With your guy When I don't wanna be that girlWe all know how the moral of the story goes Be careful what you reap because you reap what you sow I'm calling 'cause I really thought you should know Even though he's being that guyI don't want to be that girl With your guy To fool you Make you cry Wreck it all For one night To be with him when he should be with you I don't want all the dirty looks The headlines So, I called you To explain why I wound up With your guy When I don't wanna be that girl Song Discussions is protected by U.S. Patent 9401941.
