

# Say My Name (Nightcore Remix)

Knigdavd

Please, oh please  
I don't know what you're saying  
When you look at me  
Your body speaks a language  
I can barely read Give it to me baby  
Oh, my knees are weak  
My heart rate is increasing  
You tell me slow down before you hurt yourself Falling way too hard's a hazard to your health  
Up, up, and away  
Oh baby when you say my name  
Oh, when you say my name  
Oh, when you say my, say my  
Up, up, and away  
Oh baby when you say my name  
Oh, when you say my name  
Oh, when you say my, say my  
Up,  
away  
Up,  
away  
Your games ain't fair  
You tease me with your movement  
I can't help but stare Any second  
I could lose it  
Oh my god, I swear I'm living for your motion Leave me stranded there  
Swimming in your oceans  
You tell me slow down before you hurt yourself Falling way too hard's a hazard to your health  
Up, up, and away  
Oh baby when you say my name  
Oh, when you say my name  
Oh, when you say my, say my  
Up, up, and away  
Oh baby when you say my name  
Oh, when you say my name  
Oh, when you say my, say my  
Up,  
away  
Up,  
away  
You tell me slow down before you hurt yourself Falling way too hard's a hazard to your health  
Up, up, and away  
Oh baby when you say my name

Oh, when you say my name  
Oh, when you say my, say my  
Up, up, and away  
Oh baby when you say my name  
Oh, when you say my name  
Oh, when you say my, say my  
Up,  
away (Say my name)  
Up,  
away (You take me up and away)  
Up,  
away (Say my name)  
Up,  
away
