

# These Days

## Joy Division

Morning seems strange, almost out of place.  
Searched hard for you and your special ways.  
These days, these days. Spent all my time, learnt a killer's art.  
Took threats and abuse 'till I'd learned the part.  
Can you stay for these days? These days, these days. Used outward deception to get away,  
Broken heart romance to make it pay. These days, these days.  
We'll drift through it all, it's the modern age.  
Take care of it all now these debts are paid.  
Can you stay for these days?
