

Mama

LunchMoney Lewis

When I was hungry, she cooked me something yummy
And when I was sick, she would take care of me
Fix me up chicken soup
Let me stay home from school
But if I did I couldn't leave the room
'Cause that was the rule
I could run in a race and come dead last
She say that's my baby, stand up and clap
She taught me respect and I'm thankful for that
And if I ever fell in love make sure that girl love me back
Oho, a couple times when I was bad
Oho, she hold off and whooped my ass
Oho, but I'm still her biggest fan
Oho, 'cause she made me who I am
This song is dedicated to my mama
Taught me how to put on my pajamas
Always let me have a couple dollars
Told me that my dreams I better follow
I love my mama, I love my mama
Oho, I love my mama, I love my mama
I love my mama, mama I'ma hold her hand, I'ma kiss her cheek
'Cause that's my mama, I don't care who sees
I can't lie to her face, I can't lie on the phone
She can hear it in my voice oh yeah she knows something wrong
She keep the family together, make sure we get along
You'd swear she a bodybuilder, man that lady so strong
And I'm still her baby, even though I'm grown
You can call me mama's boy all you want
You could call me mama's boy all you want
Oho, a couple times when I was bad
Oho, she haul off and whoop my ass
Oho, but I'm still her biggest fan
Oho, 'cause she made me who I am
This song is dedicated to my mama
Taught me how to put on my pajamas
Always let me have a couple dollars
Told me that my dreams I better follow
I love my mama, I love my mama
Oho, I love my mama, I love my mama
I love my mama, mama This is for all the mamas
Grand-mamas, great grand-mamas
Step-mamas, single mamas, yeah
All the mamas working more than one job
Working real, real hard

Mamas all over the world, you know
This song is dedicated to my mama
Taught me how to put on my pajamas
Always let me have a couple dollars
Told me that my dreams I better follow
I love my mama, I love my mama
Oho, I love my mama, I love my mama
I love my mama, mama
