

# Forget What You Look Like (feat. Lowell)

## Netsky

I just want to get high,  
forget what you look like.

I just want to get high,  
Forget what you look like.

I just want to get high,  
Forget what you look like.

Forget what this feels like,

Forget about life

Forget about life

I just want to get high,  
Forget what you look like.

Pass me a drink,

'cause I can't wait.

Gonna take you away,

To a better place.

And heaven can wait,

'cause it's right here.

A light a line,

It felt so near.

And ooh

I'm high up and higher

And ooh

Let's take it on water

And ooh

It's hitting me harder

And ooh

I just want to get high,  
Forget what you look like.

I just want to get high,  
Forget what you look like.

Forget about life,

Forget about life.
