

# My Love (Acoustic)

Jess Glynne

There's nothing more that I would have that I could need  
Cause having this means that I've got it all  
When I was taking turn and you were wrong for me  
You chose to understand and let it go And oh, You've turn this black heart made it into gold  
So I wanna let you know that My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my love  
Looovve  
Control is such an open end it worked for me  
Something that I used to think I owned  
I'm standing here with none I'm feeling so complete  
You helped me understand to let it go And oh, You've turn this black heart made it into gold  
So I wanna let you know that My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my love  
Stay close to me, oh  
Stay close to me, yeah, love  
Stay close to me, love  
My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my  
My love and my touch, up above is made with the warmth of my love
