

# Warrant

## Foster the People

Well I've been judged  
I've been above unknown  
I know all about it  
but my heart is strong I've been away  
been running to save my head  
Yeah the warrant's out  
and I'm almost dead  
I won't say what I've already said Got to get away  
Yeah, the warrant's on my head  
Got to get away  
They want me alive or dead  
Got to get away  
Yeah, the warrant's on my head  
Got to get away  
Cause they want me alive or dead I've thought a lot about the way that they fight  
Come through the phone lines, not man enough to face me  
I can stop or argue about what they say  
Yeah the warrant's out and I'm not gonna pay  
I said what I'm gonna say Got to get away  
Yeah, the warrant's on my head  
Got to get away  
They want me alive or dead Got to get away  
Yeah, the warrant's on my head  
Got to get away  
Cause they want me alive or dead  
Fear is like a fake friend it warms you up and takes you in  
You mouth the words but no sound comes out And fear is like your best friend  
Manipulates and takes you in  
You mouth the words... no sound again But you don't know better  
Don't know better Got to get away  
Yeah, the warrant's on my head  
Got to get away  
They want me alive or dead Got to get away  
Yeah, the warrant's on my head  
Got to get away  
Cause they want me alive or dead  
Got to get away  
Yeah, the warrant's on my head  
Got to get away  
They want me alive or dead  
Got to get away  
Yeah, the warrant's on my head

Got to get away  
Cause they want me alive or dead
