## Ricochet! (Nadastrom Digital Foot Stomp Remix)

## **Shiny Toy Guns**

Welcome back to
Where I'm gonna have you
Shell shock, fall back
Anyone I see throughWatch your head spin
Like a mesocyclone
Bouncing off the walls

Now there's nowhere to runLike a bullet, meant to be shot

You're the target, dead on the spot

When I focus, I never miss

It starts with a kissShe ricochets

And you don't notice

She's in your head

And you just don't notice

She ricochets

And you don't notice

She's in your head

And you just don't noticeLet the sweat fall

Find me in the back stall

Let it snow down

Now we're gonna deck hallsI hit the bullseye

Making all the boys cry

I hit the main line

Breaking through the night skyLike a bullet, meant to be shot

You're the target, dead on the spot

When I focus, I never miss

It starts with a kiss

She ricochets

And you don't notice

She's in your head

And you just don't noticeShe ricochets

And you don't notice

She's in your head

And you just don't notice
