

# Circle

## Marques Houston

Yeah  
You know it's funny  
Seems everytime I, try to forget about you  
My feelings bring you back in  
It's crazy  
'cause I got somebody else  
And you got somebody else  
But you and I both know  
How it really it is  
But still you know what I'm saying b?Ran across the picture you took of me  
And it got me thinking'bout how it used to be  
It was just you and me  
I still you say you love me  
Put no one else above me, but that was  
Back then now your just a memory  
I still hear you saying you love me  
When I close my eyes  
If I didn't go away for school then where would we be?  
Probably still together and somewhere happy.  
If I'm supposed to be moved on to new relationshipsdarling why are you still haunting me?  
They say  
If you love something let it go  
And if it comes back then that's how you know  
I got to the stop light then I made 4 rightsNow I'm back where I started  
And you're back in my life.  
The further I go the closer I get back to you  
I say I moved on till I'm reminded of you  
Can somebody help me  
Help me get out of this circle  
Get out of this circle?  
I drove past your house the other day  
I didn't even mean to I went the wrong way  
I ain't seen your mama in a whileWhen she looked at me she smiled  
And asked me if I'm doing OK  
Took everything I had not to bring up your name  
And wonder if you came home for the holidays  
She asked if I could stay a while'cause you had come in town  
And you were just five minutes away  
If you love something let it go  
And if it comes back then that's how you know  
I got to the stop light then I made 4 rightsNow I'm back where I started  
And you're back in my life.

The further I go the closer I get back to you  
I say I moved on till I'm reminded of you  
Can somebody help me  
Help me get out of this circle  
Get out of this circle?  
Everybody who's listening to this  
If you got that person that makes you wonder what if Let me hear you say yeah  
(yeah)  
Say yeah  
(yeah)  
Say yeah  
(yeah)  
Ho yeah (hoa yeah) If you understand how I feel  
Then grab that person now and let 'em know what's real  
Let me hear you say yeah  
(yeah)  
Yeah(yeah)  
Yeah, ahahah, hoa  
If you love something let it go  
And if it comes back then that's how you know  
I got to the stop light then I made 4 rights  
Now I'm back where I started  
And you're back in my life.  
The further I go the closer I get back to you  
I say I moved on till I'm reminded of you  
Can somebody help me  
Help me get out of this circle  
Get out of this circle?
