

Poison Lips

Vitalic

Every amp just goes to dust,
I sing that go beyond these poison lips. And we shadow electrocution
and now I'm ready too,
please von come play it Every amp just goes to dust,
I sing that go beyond these poison lips. And we shadow electrocution
and now I'm ready too,
please von come play it Every amp just goes to dust,
I sing that go beyond these poison lips. Every amp just goes to dust,
I sing that go beyond these poison lips
And we shadow electrocution
and now I'm ready too,
please von come play it
