

# Poison Lips

Vitalic

Every amp just goes to dust,  
I sing that go beyond these poison lips. And we shadow electrocution  
and now I'm ready too,  
please von come play it Every amp just goes to dust,  
I sing that go beyond these poison lips. And we shadow electrocution  
and now I'm ready too,  
please von come play it Every amp just goes to dust,  
I sing that go beyond these poison lips. Every amp just goes to dust,  
I sing that go beyond these poison lips  
And we shadow electrocution  
and now I'm ready too,  
please von come play it
