

# Desire

## Gang of Four

Meet me in the dark  
Face the one that you thought you had all figured out  
You can try to show restraint  
But we both know this kiss was more than just a bait  
So tell me what it is you desire  
Cause I won't be asking twice  
I'm not here to appease you  
I am here to make you mine  
MINE Give me all of you and take the pleasure  
MINE Revel in the chaos of our passion  
Let's make each moment last forever  
And savor every night  
We can survive the worst of battles  
As long as you stay by my side  
Everything at once,  
Can't you see there's no holding back when you're with me  
Oh baby I want you all to myself  
Cause your love fulfills my every need  
Consumed by the burning desire  
To surrender to the rush  
We collide, bodies shiver  
I am yours and you are  
MINE Give me all of you and take the pleasure  
MINE Revel in the chaos of our passion  
Let's make each moment last forever  
And savor every night  
We can survive the worst of battles  
As long as you stay by my side  
MINE Give me all of you and take the pleasure  
MINE Revel in the chaos of our passion  
Let's make each moment last forever  
And savor every night  
We can survive the worst of battles  
As long as you stay by my side
