

Unmiss You

Clara Mae

Leaving the lights on if you wanna drop by
Even my phone's on if you feel like calling me later tonight
Keeping the bed warm at 2Thought it's wrong to hold onI try to come up with a hundred of
reasons not to
Leading you back to my heart just by thinking of you
But you keep coming over
Though deep down you know that you're wrong to hold onI wish I could unmiss you
Reverse the time so I could unmeet you
It would've made it so much easier, easier
If I could unmiss you when I miss you
And you could unmiss me too
That was a good things in front of our friends
I don't wanna talk shit 'cause what if we wanted to try us again
Telling them nothing 'bout you 'cause it's wrong
And I should be strong, goodbye now, I try to come up with a hundred of reasons not to
Leading you back to my heart just by thinking of you
But you keep coming over
Though deep down you know that you're wrong to hold onI wish I could unmiss you
Reverse the time so I could unmeet you
It would've made it so much easier, easier
If I could unmiss you when I miss you
And you could unmiss me too
I wish you could undo (Undo)
All of the things that made me fall for you (Fall for you)
It would've made it so much easier, easier
If I could unmiss you when I miss you
And you could unmiss me too
Wish I could undo you
Wish I never met you
That we never met
And I could just forgetI wish I could unmiss you
Reverse the time so I could unmeet you
It would've made it so much easier, easier
If I could unmiss you when I miss you
And you could unmiss me too (Unmiss me too)
I wish you could undo (Undo)
All of the things that made me fall for you (Fall for you)
It would've made it so much easier, easier (Unmiss me)
If I could unmiss you when I miss you
And you could unmiss me too (Unmiss me too)
