

Suited

Shekhinah

suited for each other yeah
don't try to move me from my lover yeah
suited for each other
suited for each other
tell em that I'll do it for my lover yeah
I cannot lose him to another yeah
call me, talked on the phone and you said
that you love me
did you say this thats for sure yeah
I wanna scream from the top of rooftop, tell you
that my love for you I, keep on rewind
I struggle to find, you worser to find
what a love for the love yeah
what a love for the love yeah, what a love
what a love for the love yeah
what a love for the love yeah, what a love
what a love for the love ahh(×2)
Pray that we both know that its just something we both would know
suited for each other
suited for each other
dont try to move me from my lover yeah
suited for each other
suited for each other
tell em that I'll do it for my lover
never lose him to another
never
never now yeah
never lose him to another
never
never now yeah
never now yeah
Said i just really miss you
And I'm forever in true to you
Somehow I just stayed glued to you
I know, gotta get away
So not forever, just a little break
I can't find myself on place
I don't know if I wanna go to far away
So we play husband and wife
You take the keys to my life
I know we're just a little to young yeah and
having just a little too much fun baby

with the love that we've got
with the love that we've got, when it just don't Stop We, fading to a special space
I, pray we never lose the faith yeah
what a love for the love yeah
what a love for the love, what a love
what a love for the lovr yeah
what a love for the love, what a love
what a love for the love ahh(×2)
Pray thatwe both know that its just something we both would know
suited for each other
suited for each other
don't try to move me from my lover yeah
I'll never lose him to another
never
never now yeah
never
never lose him to another
never
never now yeah
never lose him to another
never
never now yeah (×2)
(end)
